Dear Hiring Manager,

I am writing to express my interest in the React Native Developer / Senior React Native Developer position at your organization. With 8+ years of experience in mobile application development, including 6+ years of hands-on experience with React Native, I have strong experience building scalable, high-performance applications for Android and iOS.

In my current role, I work on complex healthcare applications, developing features such as patient management, prescriptions, reports, offline functionality, API integrations, notifications, and third-party SDK integrations. I also contribute to architecture decisions, performance optimization, code reviews, technical problem-solving, and team collaboration.

I am comfortable working closely with product managers, designers, QA engineers, and backend developers to deliver reliable and user-friendly applications. I am passionate about writing clean, maintainable code and continuously improving application performance and development processes.

I would welcome the opportunity to discuss how my experience and technical skills can contribute to your team. Thank you for considering my application. I look forward to hearing from you.

Best regards,

Yash Adroja

Senior React Native Developer
